# CAM CA DS Employer Project Team Charter

In collaboration with FOURTH REV

Team performance, productivity and trust is enhanced when the team shares a common approach and sense of purpose. This document will help to guide you through the process and approach for developing a common sense of purpose for your Employer Project Team.

## 1. Purpose

Summarise the following questions in a sentence to help your team understand everyone's motivations and develop a common sense of purpose.

| Team Member | What do you want to achieve in the Data Science Career Accelerator? | Why is this important to you? |
|---|---|---|
| Max van den Berg | Gain provable data science skills | Will help me find work in data science |
| Gladys Yelland | To gain the foundational data science and basic ml skills. | To help me find work as a data scientist with ML skills. |
| Vinita Sharma | Bridge the knowledge gap in machine learning, deep learning and NLP. | For career progression in a Fintech |
| Tran Tieu Ngoc Pham (Noelle) | Gain data science and machine learning knowledge | work requirement + personal development from data analysis |
| Albert Mmoloke | Master end-to-end data science and agentic ML workflows to translate complex predictive models into clear commercial value | It bridges the gap between technical expertise and business strategy, accelerating my path into data-driven leadership and project |
| Filip Aleksic | I am already professionally engaged in Machine Learning and Deep Learning, where I have gained significant hands-on experience in | For me, Cambridge represents the next step from being an ML engineer who successfully solves problems to becoming an expert |
| Daniel Sena Kwame Darah | Build practical, job-ready data science and AI skills and learn to apply them to real-world problems. | To transition into a data/AI career and combine my healthcare experience with data-driven problem solving |
| | | |

## 2. Approach

Practise what you P.R.E.A.C.H: Collaboration rules made by teams, for teams.
Answer these 12 quick questions, then you will be ready to collaborate!

| | | |
|---|---|---|
| **P** | Project Management and Communication | What communication tools or channels will you use to collaborate and manage your project?<br><br>Communication channels: Whatsapp, Discord and meetings twice a week.<br>Main Tool: Google Collab Notebook.<br><br>How will you manage team workload & assign tasks?<br><br>Weekly tasks are assigned to each team member with clear acceptance criteria to define exactly what is classed as complete. |
| **R** | Relationships and Team roles | Who is the project lead, defined here as the person who will coordinate the project? Will this role rotate at certain intervals?<br><br>Gladys is the project lead, and other team members will provide help wherever necessary or requested<br><br>What roles will other team members undertake? Think about your technical strengths and your human strengths, do you excel at ideation or are you amazing at proofreading?<br>Max: Data Science Lead & Validation Engineer,<br>Noelle: ML Analytics & Business Reporting Analyst,<br>Filip: Lead MLOps & NLP Deployment Engineer,<br>Vinita: Senior Quantitative Analytics & Validator Engineer,<br>Daniel: Data Science & Model Evaluation Engineer,<br>Albert: Lead Data Pipeline; DevOps Engineer. |
| **E** | Empathy and Listening | How will you make sure all members of the team are heard?<br><br>Discord Standups: Each member shares a daily update covering completed work, upcoming tasks, progress, blockers, and help requests.<br>Dedicated Topic Channel: Filip created a Discord channel for open problem-solving, collaborative troubleshooting, and team brainstorming.<br>How will you reconcile different ideas, points of view, or disagreements?<br><br>We will discuss issues over Discord or WhatsApp first. If they cannot be resolved there, we will hold a meeting to evaluate the pros and cons of each approach. If a disagreement persists, the entire team will use a voting mechanism for the final decision, iterating until the issue |

| | | |
|---|---|---|
| **A** | Attitude and Availability | Choose three attitudes or values that define your team ethos.<br><br>Respect, Support and team work.<br><br>When are meetings held and what communication is expected outside of meetings?<br><br>Tuesday and Thursday evenings. |
| **C** | Contribution and Escalation | What defines satisfactory contribution in your team?<br><br>Task Sign-off: Completed tasks must be submitted by the owner, meet the acceptance criteria, and be reviewed by fellow team members to agree it looks fine before being marked as complete.<br><br>If contribution is lacking how will you address and escalate this?<br><br>Performance Tracking: Progress is tracked through daily standups on Discord, regular check-ins across Discord channels, and during scheduled team meetings.If still further issues it will be escalated further up. |
| **H** | Help and Feedback | How will you support your teammates?<br><br>Proactive Collaboration: Help out when asked and flag issues early so the team can pitch in before things get stuck.<br>Task Flexibility: If running out of time on a task, split it up, coordinate with others, or partner up to work in pairs.<br>Responsive Communication: Stay active and reply promptly on Discord, WhatsApp, or during meetings whenever questions, ideas, or<br><br>How and when will you give feedback on tasks completed or work in progress?<br><br>Performance Tracking: Progress is tracked through daily standups on Discord, regular check-ins across Discord channels, and during scheduled team meetings. |

## 3. Team Name

Choose a team name that represents the uniques aspects of your team:

Group 2 - The insight Engine

## 4. Signed Agreement

I agree to abide by the agreements made as a team for the duration of the Employer Project.

I agree to contribute equitably to this project and maintain regular communication with my team.

I agree that failure to keep these agreements may result in being removed from the team.
